## MOTION PICTURES

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent for educational purposes to groups and organizations or may be purchased outright. Prints of Department films may be obtained from 73 cooperating film libraries in the 48 States, the District of Columbia, and the Territories of Alaska, Hawaii, and Puerto Rico.

**WATER FOR THE WEST.** 16 mm., sound, in color; also black and white; running time, 25 minutes. Released 1957.

The Rocky Mountain country furnishes water for millions of people and hundreds of communities all the way from the Mississippi River to the Pacific Coast. These majestic watersheds are almost entirely publicly-owned lands—the National Forests, managed by the forest rangers for timber, forage, recreation and wildlife, as well as for water. The Rocky Mountain Watershed is being hard-pressed to service increasing demands for clear water in constant, year-round supply. In addition to the work of the forest rangers, this film shows how the forest and watershed scientists at the Forest Service experiment stations right out in the forests and on the range, are trying to find the best ways to increase the yield of useful water without damaging the soil and the other important resources of the national forests. TV use permitted. (Not in film libraries; available for loan from regional offices of the Forest Service at Missoula, Mont.; Albuquerque, N. Mex.; Ogden, Utah; Portland, Ore.; San Francisco, Calif.; Milwaukee, Wis.; Atlanta, Ga.; and Upper Darby, Pa., and from Colo. State University, Ft. Collins, Colo. Inquire of Motion Picture Service for purchase information.)

**WATERSHED WILDFIRE.** 16-mm., sound, in color; also black and white; running time, 21 minutes. Released 1958.

The Santa Inez Watershed on Los Padres National Forest in California was damaged by wildfire which raced up the steep brush-covered canyons, destroying the protection of vegetative cover in its wake. To help control and suppress this holocaust, U. S. Marines, California State fire fighting personnel and Indian forest fire fighters cooperated with Forest Service fire fighting crews for weary days and nights until the area was safe, and the closed highways and railway rights-of-way could be reopened to traffic. The importance of reseeding immediately of such areas to help prevent devastating floods with the advent of the rainy season is emphasized. Everyone's help is needed in support of fire prevention, fire detection and fire control — to keep earth's green blanket on our western watersheds and to keep water flowing to the people of the West. Here, scorched earth was the price of human carelessness. TV use permitted. (Not in film libraries; available for loan from regional offices of the Forest Service at Missoula, Mont.; Albuquerque, N. Mex.; Ogden, Utah; Portland, Ore.; San Francisco, Calif.; Milwaukee, Wisc.; Atlanta, Ga.; and Upper Darby, Pa., and from Colo. State Univ., Ft. Collins, Colo. ### **MOTION PICTURES**

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent for educational purposes to groups and organizations or may be purchased outright. Prints of Department films may be obtained from 73 cooperating film libraries in the 48 States, the District of Columbia, and the Territories of Alaska, Hawaii, and Puerto Rico.

**THE HIDDEN MENACE.** 16-mm, sound, color. Running time, 23 minutes. Released 1958.

A graphic film story of the menace of pests and diseases that can be unwittingly carried from one country to another. Those already brought into the United States from foreign shores cost BILLIONS of dollars annually, adding to the price of every agricultural product we use or eat. The film points out ways pests and diseases hitchhike with the millions of persons entering or returning to the U. S. every year and shows what Mr. and Mrs. Traveler can do to help both customs inspectors and American agriculture. TV cleared. (Available for loan from all film libraries. Inquire of Motion Picture Service for purchase information.)

**BACK THE ATTACK ON BRUCELLOSIS.** 16-mm, sound, color. Running time, 27½ minutes. Released 1958.

Shows how one farmer discovered disease in his herd of cattle, the action that followed, and the organization and functioning of a County Brucellosis Committee. Damage caused by this easily-spread disease, its symptoms, and plans for its control and eventual eradication are reviewed. Use of the B. R. T. (Brucellosis Ring Test) for locating herds that are probably infected is graphically portrayed. The picture ends on a high hope, with figures showing a reduction of infection from 10% in 1935 to less than 2% and more than a 50% reduction in the \$100 million cost of the disease to the livestock industry in 1947. TV cleared. (Available for loan from all film libraries. Inquire of Motion Picture Service for purchase information.)

## MOTION PICTURES

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent for educational purposes to groups and organizations or may be purchased outright. Prints of Department films may be obtained from 73 cooperating film libraries in the 48 States, the District of Columbia, and the Territories of Alaska, Hawaii, and Puerto Rico.

**THERE COMES A TOMORROW.** 16-mm, sound, color. Running time, 27½ minutes. Released 1958.

A new approach to the subject of fire control in woodlot management is presented. A forest fire caused by the carelessness of a woodlot owner ultimately affects a whole community. The story portrays the corrosive effects of the fire on human relationships and on the esthetic and economic aspects of community life. Under the leadership of a sawmill operator and forest fire wardens, the community is aroused to the need for greater support of the state fire control organization. TV cleared. (Not in film libraries; available for loan from regional office of the Forest Service at 6816 Market St., Upper Darby, Pa., and from State Foresters of the 14 Eastern States that cooperated in film's production. Inquire of Motion Picture Service for purchase information.)

**WATERSHED WILDFIRE.** 16-mm., sound, in color; also black and white; running time, 21 minutes. Released 1958.

The Santa Inez Watershed on Los Padres National Forest in California was damaged by wildfire destroying the protection of vegetative cover. To help control, U. S. Marines, California State fire fighting personnel and Indian forest fire fighters cooperated with Forest Service fire fighting crews until the area was safe. The importance of reseeding immediately is emphasized. (Now available from film libraries in the Western States; also from regional offices of the Forest Service at Missoula, Mont.; Albuquerque, N. Mex.; Ogden, Utah; Portland, Ore.; San Francisco, Calif.; Milwaukee, Wisc.; Atlanta, Ga., and Upper Darby, Pa. Inquire of Motion Picture Service for purchase information.)

**YOUR MEAT INSPECTION SERVICE.** 16-mm., sound, color; running time, 27½ minutes. Released 1956. Graphically tells the story of those who guard the wholesomeness of our nation's meat supply—the Federal meat inspectors. Shows their watchfulness over sanitary conditions in stockyards and processing plants, examination of live animals and carcasses, and testing of meat products in laboratories for healthfulness so that the American consumer can have full assurance that meat with the “stamp of approval” is a quality product. The film instills a new understanding of the value of the famous symbol—the small, round, purple stamp that says and means “U. S. Inspected and Passed.” TV use permitted. (Available for loan from all cooperating film libraries; for sale from United World Films, Inc., 1445 Park Avenue, New York 29, N. Y., \$131.50.)

#### BULLETIN OF THE MONTH

Windbreaks in Conservation Farming

Miscellaneous Publication 759

This bulletin points out many values and uses of windbreaks and tells how they can be fitted into conservation farming.

#### FARMERS' BULLETINS

Johnson grass as a weed. (F 1537, revised.) 14 p., illus. Ellis W. Hauser and H. Fred Arle. Agricultural Research Service. Price 10¢. This perennial weed has become a serious hazard to economical crop production in many areas of the United States. This revised bulletin discusses control by cultural and chemical methods.

#### LEAFLETS

Demodectic mange in cattle. (L 438.) Folder, illus. Agricultural Research Service. Price 5¢. Demodectic mange, caused by a tiny mite, costs U. S. cattle owners an estimated \$5,000,000 each year. This leaflet describes the cause of the disease and discusses treatment.

### MOTION PICTURES

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent for educational purposes to groups and organizations or may be purchased outright. Prints of Department films may be obtained from 73 cooperating film libraries in the 48 States, the District of Columbia, and the Territories of Alaska, Hawaii, and Puerto Rico.

**BASIC TECHNIQUE FOR HOME LANDSCAPING.** 16-mm., sound, color; running time, 11½ minutes. Released 1958. Using colorful pop-on animation, this how-to-do-it film shows that the house that pleases the eye of passers-by is one that employs good landscaping. In the public area in front, symmetry and balance are desired; in the utility area in back, the play and garden spaces are located for convenience and need; and the private, outdoor living area is planted in trees, shrubs, and flowers to conform with either a formal or informal setting. (Produced and distributed in cooperation with the American Association of Nurserymen.) TV use permitted. (Available for loan from all land-grant college cooperating film libraries. Inquire of Motion Picture Service for purchase information.)

**RURAL COMMUNITY DEFENSE.** 16-mm., sound, black and white; running time, 13½ minutes. Released 1958.

We can't hope the danger of the H-bomb will go away. It is one of the major facts of our time. We have no choice but as a nation, a community, as an individual, to plan for survival in the event of enemy attack. If war should come, farmers will play a crucial role in providing America with life-sustaining food, fiber and shelter. What can be done about it? This film shows that farm families can plan NOW for survival—by cooperating with neighbors to develop community survival plans and by preparing to meet emergencies. TV use permitted. (Available for loan from all cooperating film libraries. Inquire of Motion Picture Service for purchase information.)
